Is the Local Government required to comply with NJSA 11A (Civil Service) - YES or NO — Yes

Note - **Base Pay** is the annualized rate of pay to which overtime (if eligible) and/or pension is calculated. Either calculation is fine at the discretion of the Local Unit. Overtime and other compensation is any other item that is charged as a salary and wage expense but not included in Base Pay.

Note - **Pension** cost is based upon a estimated % applied against the employees' base pay for pension purposes. Per information provided on the Division of Pensions web site the April 2014 pension liability is calculated as follows: PERS is 11.14% of annualized salaries reported on the June of 2012 Report of contributions. PFRS is 24.85% of annualized salaries reported on the December 2011 Report of Contributions. For the purpose of estimating FY 2015 Pension Costs, these percentages will also be applied against Budgeted Base Pay for Pension purposes for the current fiscal year FY 2015. For the DCRP the employer contribution is 3% of Base Pay. This total will not agree with the amount budgeted to pay the April 1, 2014 Pension Liability.
