ALL APPLICATIONS - Description of Project or Use

When completing the *Description of Project/Use* section, be very specific and detailed. For example: If a structure is proposed, explain its use and note its dimensions. (All applicants must indicate the absence or presence of a well and/or septic on the property). The more information you provide, the less likely there will be of questions that could hold up your application.

Residential applications need to include one copy of a signed/sealed survey of the property, showing all existing structures. All structure(s) being proposed must be drawn in clearly and to the same scale as the survey.

Non-Residential & Mixed Use applications need to include one copy of a signed/sealed site plan, showing the location of all existing structures, setbacks, topography, utilities and all dimensions/measurements. All structure(s) being proposed must be shown clearly, drawn to the same scale as the site plan and include all dimensions and distances from the property lines.
